🧠 SKILLS

TypeScript

Back-end and Web3 Development

Mobil Application Development

Flutter

Design Patterns

CI/CD Pipelines

I'm using Jenkins but still learning

Docker

I can write optimize docker files

PostgreSQL

I can sql effectively

PL/PGSQL Development

I can write pgsq functions for better development

Spring Boot

I can build secure project with Java
Spring

👤 WHO AM I

As a passionate Full-Stack Developer , I have had the opportunity to work on projects that positively impact people's lives. My experience in web3 development has given me a solid understanding of the latest technologies and trends in the industry.

I am driven by a passion for producing products that make a difference in people's lives, and this is what motivates me to continuously improve my skills and knowledge in software development. Throughout my career, I have challenged myself to develop and deliver successful projects from concept to launch.

I am excited to bring my expertise, dedication, and collaborative spirit to a team that shares my vision for creating innovative products that touch people's lives.

🎓 EDUCATION

Mathematical Engineering

Yildiz Technical University

2019 – 2024 | Istanbul, Turkey

🏆 AWARDS

Winner of EthPrivacy Hackathon

<https://www.leadingprivacy.com/istanbul>

Solona Turkey Hackathon

💼 PROFESSIONAL EXPERIENCE

Bizzut

Content Writer

11/2020 – 01/2021

- Completed thorough research into assigned topics.
- Wrote and edited high-quality content.

CIGRE

Technical Education Teacher

01/2022 – 04/2022

- I taught mobile programming classes under the Cigre club at Yildiz Technical University.

Digital Operation Services A.Ş.

Software Developer

05/2022 – 06/2023

- Developed and managed PostgreSQL databases for high-traffic web applications.
- Built RESTful APIs and implemented middleware using NestJS and TypeScript.
- Worked with Amazon Web Services (AWS) to deploy and maintain applications on cloud infrastructure.

CERTIFICATES

Spring MVC, Spring Boot and Rest ControllersSpring MVC [↗](#)

Coursera

Building Scalable Java Microservices with Spring Boot and Spring Cloud [↗](#)

Google Cloud

PROJECTS

Recharger App

<https://www.linkedin.com/in/recharger-app>

This project was a mobile application aimed at fast charging stations. I worked as a Flutter Developer in this project and played an important role in its development. I actively used my experience in Flutter and edrv integrations to contribute to the development of the project.

Budget Blocks

<https://solana.com/grizzlython/projects/budget-blocks>

Budget Blocks is a blockchain-based financial management platform designed to help individuals and businesses build and manage budgets, track expenses, and make payments through user-friendly mobile wallets. As a participant in the global Solana Hackathon, the project is currently seeking investment and has not yet reached the end-user market. With its innovative approach to financial management and its recognition in the hackathon community, Budget Blocks has the potential to revolutionize the way we approach personal and business finances.

Uygun Bodur, CTO, Dop
+90 533 255 61 02

Barışcan Güngör, Founder,
Originium Technology
+90 532 227 73 34

- Containerized applications using Docker and implemented continuous integration and deployment pipelines.

Originium Technology

Software Developer

10/2022 – 2023

- Documented design patterns for later use as templates in subsequent patches and iterative app development cycles.
- Collaborated across multi-disciplinary teams using Agile development frameworks.

OBSS Tech A.Ş.

Back End Developer Intern

07/2023 – present

- I develop a web app with Spring Boot and React.js with clean architecture

ORGANIZATIONS

Developer Kitchen

Core Member

08/2022 – present

- I gave presentations to assist the developer committee.
- We organized Turkey's first developer-focused web3 event. <https://www.linkedin.com/company/web3-developer-summit/>

Superteam Turkey

Member

08/2022

- I'm one the member of superteam developer group

YTU Blockchain Club

Board Member

2023 – present

EDCON 2023

Volunteer Staff

Podgorica, Montenegro

I played a big part on organizing EDCON conference in Montenegro
